

Call, Text and Work from Anywhere with the Cloudli Connect App

Cloudli Connect's powerful calling and texting features can be accessed on mobile and desktop devices using the Cloudli Connect app, giving you the reliability you demand, with the ease of use you deserve. This allows you and your team to easily access your cloud business phone features right from your fingertips, from virtually anywhere.

By supercharging your business phone number with the Cloudli Connect application, you can benefit from unlimited communications across Canada and the US¹, text message capabilities², and total team access to your business phone service via their preferred Windows, Mac, iOS and Android devices.

Cloudli Connect features that are accessible via the app include:

- Unlimited calling across Canada and the US¹
- Unlimited team messaging
- Conference calling
- Voicemail
- Contact syncing to Microsoft O365
- Unlimited SMS/MMS across Canada and the US^{1,2}
- Call transferring
- Call recording
- Do Not Disturb mode
- Call Manager

Key Benefits:

- Receive incoming calls for one or multiple phone extension(s)
- Initiate conference calls, call recording, call transfer, and other calling functionality directly from the app
- Send and receive rich media files like photos, videos and documents via SMS/MMS and team messaging
- Navigate the app hassle-free with its intuitive user experience
- Select from multiple languages available (French, English, Spanish, Arabic, Traditional and Simplified Chinese, and more)
- Switch over from WiFi to Cellular data for optimal call stability
- Benefit from Cloudli's robust, reliable and secure communications infrastructure
- Experience Cloudli Connect with its mobile app compatible features and functionalities
- Use the Single Sign-On (SSO) to log into your Cloudli Connect web portal and mobile app

¹Subject to Cloudli Terms of Service and Fair Use Policy

²SMS/MMS available as an optional feature at an additional cost
