

# FEATURE BRIEF

## Microsoft Teams Integration

### Do More With Teams

Streamline and standardize your cloud communications with Cloudli Connect's Microsoft Teams integration. This easy-to-implement integration allows Microsoft Teams users to seamlessly access Cloudli Connect's rock-solid voice services directly from Teams.

### Why Integrate Cloudli Connect with Microsoft Teams?

- Eliminate the need for separate voice and video solutions
- Augment operations with enhanced business phone features like auto-attendant, hunt groups, call forwarding, and more
- Choose from a broad range of supported desktop devices
- Leverage optional add-ons like call recording and call center, as needed

### How it Works

Integrating Cloudli Connect with Microsoft Teams is easy! Upon subscribing to Cloudli Connect with the Teams integration option, the connection between Cloudli Connect and Teams is activated through Cloudli's user-friendly administrative portal. Once that's complete, your users can take advantage of all that Cloudli Connect has to offer from within their Teams client!
